

Together we can defeat coronavirus

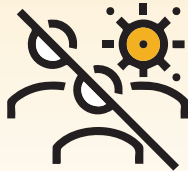

COVID-19 STAYING SAFE WHEN A HOUSEHOLD MEMBER GETS SICK

If someone in your household is infected with COVID-19, they need to **keep away from everyone** in the home for **2 weeks**

If they cannot be quarantined at home, **government will provide quarantine facilities**

This will help **prevent others** in your household **from getting sick**

You only have to **stay** in a **quarantine centre** for up to **2 weeks**

The centre will **feed you**, make sure you are warm and provide **medical care**

Call the government hotline for more information: **0800 029 999**
